“ *We have had the pleasure of working with Wayne for close to 20 years.*

Wayne always gave us honest, sound business advice and was intricate in making us successful in our lampshade business. He was one of the few reps that we knew we could trust. We loved how he would tell it like it is- "Oh, no you don't want to buy that" or "You should really start buying this." He was always correct! We looked forward to his visits every few months and his stories. We always had a good chuckle together.

Wayne will be missed.

Our deepest sympathy to your family.
